Intel Core i7-7700 Kaby Lake Quad-Core 3.6 GHz LGA 1151 65W BX80677177700 (CPU Passmark** Score = 10,813 as of 9/20/17)	\$ 1129.00
Intel Core i5-7600 Kaby Lake Quad-Core 3.5 GHz LGA 1151 65W BX80677157600 (CPU Passmark** Score = 8.835 as of 9/20/17)	\$ 1045.00

****Passmark.com** does “benchmark testing” to make it easier to compare the power of all the various processors available in the market today. With cryptic, meaningless names and varying operating frequencies as well as the number of processor cores it can be difficult to know which CPU is the best value. We use Passmark’s numbers and choose the CPUs that give you the best bang for your hard earned dollars. Some CPUs have lower performance but have a higher price tag; we stay away from those. You can look up your current CPU at http://www.cpubenchmark.net/cpu_list.php to compare your CPU
