

PowerTac Destroyer 2100 Lumen LED Flashlight

\$424.95

Destroyer

2100 Lumens

The PowerTac Destroyer high-power LED flashlight is designed specifically to be the ultimate search & rescue light. It is built with cutting-edge technology, unparalleled performance, exceptional craftsmanship, and unbeatable reliability. It comes with a friendly user interface and multi-functions for different situations. It is perfectly engineered to produce a highly focused beam for the extra long throw. It's portable, yet powerful and delivers on design, performance, quality and reliability. It is the preferred choice of many professionals and ideal for military, police, adventurers, hunters, search and rescue and other tough or hazardous tasks.

Features:

- Utilizes a cutting edge LUMINUS DEVICES SST-90 high power white LED that enables the Destroyer to produce an amazing 2100 lumen at the brightest and Strobe setting.

- 4 different brightness modes for different lighting needs.

- Super long 800+ meter beam throws with an impressive flood light to illuminate objects at both long and close distances.

- Friendly user interface, magnetic-ring switch to change functions for simple operations and waterproof capability.

- Unique digital circuit control technology to maximize battery life and consistent light output performance.

- Machined from aircraft grade aluminum.

- Maintains its appearance through extreme weather and rugged treatment with a tough, durable Type III anodized finish.

O-ring sealed to IPX-8 water proof standard.
Tempered glass resists breakage or scratching on impact, double-sided coating maximizes light output.
Battery indicator illuminates around on / off side switch with different color for power level.
Built-in waterproof fan for superior active heat dissipation (AHD) to maintain uninterrupted application.
Stainless steel rings on both the head and tailcap allows the light to be carried using the included nylon high quality ergonomic shoulder strap.
Advanced anti-slip knurling and matte style finish for a firm grip.
Momentary forward click side switch.
Stand on tail cap to serve as lamp.

Specification:

1. LED type: LUMINUS DEVICES SST-90 white LED.
2. Functions: 4 Steady Illumination Levels and Strobe Mode.

Standby	Low (Time)	Medium 1 (Time)	High (Time)	Strobe (Time)
off	300 lm (20 hrs)	700 lm (7 hrs)	2100 lm (1.5 hrs)	2100 lm (4 hrs)
3. Side switch for power on / off.
4. Rotatable Magnetic-ring switch for adjusting brightness levels / functions.
5. Battery pack: 6 cell 18650 (2600 mAh) high quality rechargeable Li-ion battery pack, disassemble battery pack will void factory lifetime warranty, output voltage is 8V-12.6V.
6. Length: 330 mm. Bezel diameter: 76.00 mm. Body diameter: 46.00 mm. Tailcap diameter: 50.00 mm.
7. Weight: 1.2 kgs (not including the shoulder strap and AC charger).
8. Maximum output power up to 30W.
9. Packaging: Portable high strength aluminum box.
10. Accessories: 1 AC charger and 1 high quality shoulder strap.

Instruction:

1. Destroyer installation is done by connecting the head and battery pack together, do not over tighten the thread, then press the side switch to turn it on or off.
2. To switch functions, turn the magnet-ring switch from left to right, the mode will change as: Lockout – Low – Medium 1 – Medium 2 – High – Strobe.
3. Power indicator built in main switch: Red, need to charge; Blue, fully charged.

DO NOT mix old and new batteries or different brands. This could result in explosion.
