- Four cell 18650 (2600mAh) high quality rechargeable Li-ion battery pack ensures the user about 15 days of constant run time on the lowest setting.(The Firefly Mode)
- 590+ meter beam throw with impressive flood light to illuminate objects at both long and close distances.
- Intelligently designed friendly user interface for easy access to general illumination and strobe modes.
- Auto-memorization for all settings.
- Unique digital circuit control technology to maximize battery life and consistent light output performance.
- Maintains its appearance through extreme weather and rugged treatment with a tough, durable Type III anodized finish.
- Machined from aircraft grade aluminum.
- O-ring sealed to IPX – 7 water proof standard.
- Tempered glass resists breakage or scratching on impact.
- Double-sided coating maximizes light output.
- Preserves LED and electronic components with a superior heat sink designed for quick & better heat dispersion.
- Defends against physical attack with a crenellated bezel on the head for self defense.
- Matte style finish and advanced ergonomic design with anti-slip knurling for firm grip.
- Includes a high quality holster designed to fit belts of various sizes.
- Able to stand on tail cap to serve as lamp.
- Multiple illumination functions while charging.
- Standard 5 V output to charge iPhones, iPads and most other mobile devices.

SPECIFICATION

1. LED type: CREE XM-L2 U2 LED.

2. Functions: 4 Illumination Levels and Strobe Mode.

Firefly (Time)	Low (Time)	Medium (Time)	High (Time)	Strobe (Time)
5 lm (1000 hrs)	100 lm (35 hrs)	500 lm (7 hrs)	1000 lm (3.5 hrs)	1000 lm (7 hrs)

3. Battery: Use 4 cell 18650 (2600 mAh) high quality rechargeable Li-ion battery pack.

4. Length: 177.5 mm. Bezel diameter: 63.5 mm. Body diameter: 50 mm. Tailcap diameter: 52 mm.

5. Weight: 705 g (with battery).

6. Accessories: 1 AC charger, 1 micro USB cable, 1 Nylon holster and 1 spare O-ring.

DO NOT mix old and new batteries or different brands. This could result in explosion.
