

PowerTac X3000, 3000 Lumen Rechargeable LED Flashlight \$354.95

X3000

Adjustable light colors

3000 Lumens

The Ultimate Rechargeable high intensity white light with Color LED Flashlight + Mobile charger

INTRODUCTION

The PowerTac X3000 is a unique high intensity and high quality white light with color LED Flashlight, it has individual Red, green, royal blue LEDs and 3 CREE XM-L2 LEDs driven to its maximum. It is packed with many functions and color options coupled with different levels of brightness and strobe modes. It will save the moment whether you need a bright light for signaling or charging your smart phone. It can be charged by the included AC charger.

This high-power LED flashlight is designed specifically to be the ultimate rechargeable search and rescue compact light & the portable charger. It is built with cutting-edge technology,

unparalleled performance, exceptional craftsmanship, and solid reliability. It comes with a friendly user interface for simple operations and multi-functions for variable situations. It is perfectly engineered to produce a highly focused beam for extra long throw, yet still have enough flood light to light the close distance. It's portable, powerful and delivers on design, performance, and quality. Its tremendous illuminating power, extraordinary versatility, rugged built quality makes it the preferred choice of many professionals and ideal for military, police, adventurers, hunters, search & rescue and other tough or hazardous tasks.

FEATURES

- Utilizes three CREE XM-L2 U2 latest LED that enables the X3000 to produce an amazing 3000 lumens at the brightest level of the white light.
- Four cell 18650 (2600mAh) high quality rechargeable Li-ion battery pack engineered to ensure the user more than one month of constant run time on the lowest setting.(The Firefly Mode)
- 481+ meter beam throw with impressive flood light to illuminate objects at both long and close distances.
- Intelligently designed friendly user interface for easy access to general illumination and strobe modes.
- Auto-memorization for all settings.
- Unique digital circuit control technology to maximize battery life and consistent light output performance.
- Maintains its appearance through extreme weather and rugged treatment with a tough, durable Type III anodized finish.
- Machined from aircraft grade aluminum.
- O-ring sealed to IPX – 6 water proof standard.
- Tempered glass resists breakage or scratching on impact.
- Double-sided coating maximizes light output.
- Preserves LED and electronic components with a superior heat sink designed for quick & better heat dispersion.
- Defends against physical attack with a crenellated bezel on the head for self-defense.
- Advanced ergonomic design, matte style finish and anti-slip knurling for firm grip.
- Includes a high quality holster designed to fit belts of various sizes.
- Able to stand on tail cap to serve as a lamp.
- Multiple illumination functions while charging.
- Standard 5 V output to charge iPhones, iPads and most other mobile devices.

SPECIFICATION

1. LED type: Three Cree XM-L2 U2 LED and XP-E RGB (red / green / royal blue) LED.

- CREE XM-L2 white LED (T6): High (3000 lm / 1.5 hrs) – Medium (1000 lm / 4 hrs) – Low (500 lm / 7 hrs) – Firefly (5 lm / 1000 hrs).
- CREE XP-E red LED (N3): High (105 lm / 15 hrs) – Strobe (105 lm / 30 hrs).

- CREE XP-E green LED (Q3): High (170 lm / 15 hrs) – Strobe (170 lm / 30 hrs).
- CREE XP-E royal blue LED (15): High (60 lm / 15 hrs) – Strobe (60 lm / 30 hrs).

2. Functions: 7 steady beam illuminations and 5 Strobe.

3. Battery: Use 4 cell 18650 (2600 mAh) high quality rechargeable Li-ion battery pack.

4. Length: 177 mm. Bezel diameter: 63.5 mm. Body diameter: 50 mm. Tailcap diameter: 52 mm.

5. Weight: 723 g (with battery).

6. Accessories: 1 AC charger, 1 Nylon holster and 1 spare O-ring.

DO NOT mix old and new batteries or different brands. This could result in explosion.
